MARIETTA, GEORGIA**

December 16, 2013

**ADDENDUM #5
FOR
RADAR SPEED DISPLAY UNITS – RFB 14-035164
RFB 14-035164**

All prospective proposers are hereby advised to make the changes to the Bid documents in their possession as shown and/or described in the attached information:

Question:

Changing this to 15" for the digit height will not conform to the MUTCD requirement you sent out in Addendum # 3.

Will this be a non-conforming Radar Display now?

Answer:

No, it will not be a non-confirming radar display. All roads where we are planning to install the signs have posted speed limits less than 45 mph. We just wanted to use the larger ones on multilane roads with 35 mph or 40 mph posted speed limits and the 12" minimum height signs on streets with 25 mph and 30 mph posted speed limits. The 15" for 6 signs in addendum #4 is a minimum height; so, bidders can supply signs that have more than 15" digit heights for those.

Please sign the Addendum below and include with your proposal.
